EDUCATION

MAULANA ABUL KALAM AZAD UNIVERSITY OF TECHNOLOGY, WEST BENGAL
Degree in MCA — July 2022 - July 2024
CGPA: 8.31

Jogesh Chandra Chaudhuri College West Bengal
Degree in Bsc,Cs — August 2018 - August 2021
CGPA: 7.6

EXPERIENCE

Rebin Infotech | Software Developer Kolkata,West Bengal | July 2024 - Present

- Led the development and end-to-end management of **DentalBookingOnline** (dentalbookingonline.com),and **london dermatology clinic** a US-based application tracker revolutionizing dental appointment scheduling and clinic management system.
- Leveraging **advanced React.js, Redux, Context API, and Ant Design (ANTD), and may more**. I ensured a seamless and intuitive user experience. My role involved designing and implementing dynamic interfaces, **integrating robust APIs for real-time data synchronization, and optimizing the application for performance and scalability**.

SKILLS

Programming Languages:	Java, C, JS, Python
Libraries/Frameworks:	React js, tailwind css, Bootstrap, Scss, Redux, Node Js, Three Js, Gsap
Tools / Platforms:	Git, VS Code, Cursor AI, Git hub
Databases:	SQL, MongoDB, Express

PROJECTS / OPEN-SOURCE

Dental Booking Online | Link

- A end-to-end application tracker revolutionizing dental appointment scheduling and clinic management system.
- Leveraging **advanced React.js, Redux, Context API, and Ant Design (ANTD), Scss,Ag-Grid** and may more. integrating robust **APIs for real-time data synchronization, and optimizing the application for performance and scalability**.

london dermatology clinic

- This healthcare management system includes **patient data management, Roster System for doctors, prescription handling, lab test result , billing systems and task management tools.** Utilized **Ag-Grid Table** for advanced table management, **Bootstrap, MUI, and SCSS** for styling and responsive design, and using **Redux** for data management and **React** for single page web application.

LMS App with MERN Stack

- Fullstack LMS App from scratch using ReactJS, Express, NodeJS and MongoDB with **payment integrartion stripe and webhook**
